

Use the following color names when ordering from us to best describe the color of the ProTecShield fabric desired to match the sand on your project. We cannot guarantee an exact match but we will do our best to match your request so that in the event your ACT product is exposed during a storm it will blend in with the surrounding sand environment.

(Because computers monitors can display colors differently, we recommend when possible for you to send us a bag of your sand for the best possible match).

Erosion Control Fabric

Color Range

2001 Rubber White
Pantone 11-0107TP

2008 Off White
Pantone 12-0304TP
